Schulich Medicine & Dentistry is for Everyone!

Ask a Student Ambassador

Adela

MD Class of 2027

"Be passionate! Applying to medicine can be overwhelming. Engaging in activities you are passionate about, whether related to medicine or not, will not only help you in your application process but also prevent burnout in medical school. There are countless opportunities out there, make sure you find the ones that suit your interests!"

[Q&A with Adela](#)

Andrew

MD Class of 2026

"Medicine allows me to combine many of my interests. I enjoy teaching and want to have a role in curriculum development in the future. I also want to work as part of a team and thankfully medicine is very collaborative. I also like to learn new things so pursuing a career driven by research and innovations excites me because there is always something new to learn."
